

REVOLUTIONIZING THE WINDOW FILM INDUSTRY

Ceramic Pro is the Global Leader in vehicle and surface protection. KAVACA Window Films integrate nanotechnology used in our flagship coatings, coupled with precision manufacturing and superior quality materials to deliver the world's finest window tint to our valued customers.

Nanocarbon Technology

KAVACA Carbon X contains a proprietary blend of nanocarbon particles and IR blocking materials, which results in blocking up to 95% of the infrared heat you feel.

UVA/UVB Protection

This advanced window film is formulated to prevent interior damage and reduce the potential of skin cancer. Blocking 99.9% of harmful UV rays, protecting you and your interior from the sun.

No Signal Interference

The infusion of nanotechnology replaces metals and crystalline materials found in other premium window films. The result is crystal-clear radio, cell, and satellite signals.

Exceptional Color Match Technology

KAVACA Carbon X's color matches perfectly with factory installed privacy glass on both import and domestic vehicles. This makes Carbon X the perfect film to use for customers seeking front-window only installation.

Lifetime Warranty

KAVACA Carbon X is backed by a Carfax documented lifetime warranty against adhesive failure, peeling, delamination, fading and cracking.

CARBON X

THE BEST VALUE
IN PERFORMANCE
WINDOW FILMS

SUPERIOR QUALITY AFFORDABLE PRICE

KAVACA Carbon X bridges the gap between entry-level and premium-grade ceramic window films – at an affordable price. Using a proprietary blend of nanocarbon particles and IR blocking materials, along with a Next Generation manufacturing process – Carbon X showcases an amazing 74% of film-only infrared blocking. When installed on automotive glass, the heat rejection properties approach 95% of infrared radiation.

The Next Generation performance of KAVACA Carbon X also delivers 99% protection against harmful UV radiation. The unique construction of this 1.5-mil film makes it seamless for installers and delivers a level of clarity and interior comfort never seen in an entry-level window film.

Carbon X is the perfect solution for vehicle owners and car dealerships seeking front-window installation of a window tint, with a perfect color match for front-window installation jobs to domestic and import OEM rear privacy glass – without compromising quality, clarity, and performance.

The result is an unmatched and opulent interior comfort and clarity experience, making KAVACA Carbon X the highest performing film for the price in the window tint industry.

CARBON X

PERFORMANCE WINDOW FILM

Product Shade	5	20	35	50
Total Solar Energy Rejected %	61	57	51	47
Glare Reduction %	95	82	58	29
UV Rejection %	99.9	99.9	99.9	99.9
IR Rejection %	95	91	83	80
IR Rejection % (film only)	74	54	39	32
Visible Light Transmission %	5	21	38	48

The performance data above was tested according to ASTM & AIMCOL standards. All values represented are with film applied on 1/8" (3mm) glass.
