

REVOLUTIONIZING THE WINDOW FILM INDUSTRY

Ceramic Pro is the Global Leader in vehicle and surface protection. KAVACA Window Films integrate nanotechnology used in our flagship coatings, coupled with precision manufacturing and superior quality materials to deliver the world's finest window tint to our valued customers.

Nanoceramic Technology

KAVACA Ultimate IR contains a proprietary blend of nanoceramic particles and IR blocking materials, which results in blocking up to 99% of the infrared heat you feel.

UVA/UVB Protection

This advanced window film is formulated to prevent interior damage and reduce the potential of skin cancer. SPF500 blocks 99.9% of harmful UV rays, protecting you and your interior from the sun.

No Signal Interference

The infusion of nanotechnology replaces metals and crystalline materials found in other premium window films. The result is crystal-clear radio, cell, and satellite signals.

Custom Style Or Clarity

KAVACA Ultimate IR is offered in multiple VLTs or shades, allowing you to customize the darkness of your windows for improved privacy, or lighter shades - without compromising heat rejection.

Lifetime Warranty

KAVACA Ultimate IR is backed by a Carfax documented lifetime warranty against adhesive failure, peeling, delamination, fading and cracking.
